

Approximate Vegetable Seed Sowing Dates for Monument

The dates in the table are based on frost dates for downtown Monument. At an elevation of 7200 feet, your approximate average last killing frost is May 25. Your average first killing frost in the fall is October 1.

To get the approximate frost dates (and recommended planting times) for your location, you must first know your elevation. Then, add or subtract one day for every 100' change in elevation for your area.

| Cool Season Vegetable | Indoor Seed Date | Transplant Date | Direct Sow Date (Spring) | Direct Sow Date (Fall) |
|-----------------------|------------------|-----------------|--------------------------|------------------------|
| Beets | | | April 25th | August 5th |
| Broccoli | March 10th | April 25th | June 10th | |
| Brussel Sprouts | March 10th | April 25th | June 10th | |
| Cabbage | March 10th | April 25th | | July 5th |
| Carrots | | | May 1st | |
| Cauliflower | March 10th | April 25th | | July 13th |
| Collards | March 10th | April 25th | May 25th | |
| Kale | April 10th | May 10th | April 10th | July 25th |
| Kohlrabi | April 10th | May 25th | | July 5th |
| Leeks | February 25th | May 10th | | |
| Lettuce | April 10th | May 1st | April 10th | July 25th |
| Onion Sets | | April 1st | | |
| Parsnips | | | April 10th | |
| Peas | | | April 10th | |
| Potatoes Seed | | April 1st | | |
